

CHATEAUNEUF DU PAPE – MAISON BOUACHON

« La Tiare du Pape » White 2006

In XIVth century when popes moved in Avignon, they were used to spend their summer time in Châteauneuf du Pape, this explains the village name overhang there is ruins of popes' castle. They promote (permit the development) of wine production and vineyards in the area, moreover under John XXII reign. Referring to this story this cuvee name is "La Tiare du Pape" meaning the crown's pope.

Châteauneuf du Pape is the jewel and the roots of Maison Bouachon, established more than a century ago in summer papal residence.

Vineyard soil: Several kilometers to the north of Avignon, on the rocky, sun-scorched hills and terraces swept by the Mistral, is the celebrated vineyard of Châteauneuf du Pape. Plots which are harvested for « La Tiare du Pape » are followed up all over the year by our technicians and oenologist, respecting special schedule of conditions. The soil is made with clay and limestone mixed cover up with quartz round stones. The Alpine diluvium (quartz stones) have a heat-regulating effect: they store up the heat of the day and return it during the night, creating a well-known furnace effect.

Grape varieties: With the varieties allowed « La Tiare du Pape » is mainly composed of: Grenache blanc (60 %) Roussanne (20 %) Bourboulenc (15 %) and Clairette (5 %).

Wine making: The processing consists in selection of parcels: old vines 30-40 years old, best exposures, low yields. Our technicians like to select plots where vines can support when dry weather. Grapes are harvested by hands and rigorously sorted out. Each grape variety is vinified separately after total de-stemming. A slow cold fermentation (nearly 20 degrees) in order to extract all the primary fruit flavour.

Maturing: It is done on the lees with regular stirring to extract maximum of fruit aromas before blending.

Vintage: The 2006 vintage is one whose enjoyment lies in its whimsy and disparity. It was first subject to a warm sunny spring and a sprinkling of stormy showers. The summer was dry with some local storms and heavy rainfall. The whites and rosés are full of the aromas of fresh fruit and flowers, in bright colours with a harmonious mouth balancing elegance and liveliness.

Description:

Colour: Crystalline yellow robe with green tints.

Smell: Delicate and complex with prime flavours on fresh summer fruits (peach, william pear) then on exotic fruit (pineapple, mangoes).

Mouth: Elegant attack. It gives a feeling of mellow, with candied fruits mingle with floral flavour.

Ageing: It can be drunk but also kept 1 or 2 years.

Recommended drinking temperature: 11 to 12 degrees.

Medal :
